**THE UNIVERSITY OF HONG KONG**

Established in 1911, The University of Hong Kong (HKU) is recognized as a world-class comprehensive research university. It offers internationally recognized qualifications and it is renowned for its academic and research excellence worldwide. As an English-medium university in China, HKU also offers researchers unique opportunities to bridge cultures and continents. There are 10 Faculties and around 45 academic departments and schools that engage in multi-disciplinary teaching and research. Today, the University has more than 28,000 students and 3,000 academic and research staff. HKU is ranked 27<sup>th</sup> in the 2016 QS (Quacquarelli Symonds) World University Ranking.
